Energy Efficiency Advisory Council

“Whistle Stop” Overview

Goal of the Whistle Stop

- “One-on-one” communication with EEAC members.
 - Assess experience to-date
 - What is going well?
 - What can be improved?
 - How can the Consultant Team help?
 - Review goals/milestones for 2018

High-Level Observations

- Commitment to energy efficiency from all EEAC members and program administrators
- Strong interest to identify opportunities for increased collaboration
- Increase engagement of EEAC external stakeholders

Key Action Categories

- Program data and reporting
- Understanding the potential pros/cons of statewide program models
- Program development
- Technical assistance
- Councilor education
